

To the supplier

Place, date

Subject: request up-to-date MSDS

To Whom It May Concern,

We would like to receive the up-to-date MSDS (material safety data sheets) for the products listed below :

.....
.....

These products are used by the employees of our company and the MSDS will allow us to perform the chemicals' risks assessment. We must also transmit the MSDS to our occupational physician.

French legislation requires* that the MSDS must include instructions about the personal protection equipments (type of gloves, gloves breakthrough time, eyes protection, respiratory protection...) for a safe handling of those products.

Best regards,

* arrêté du 9 novembre 2004
